

TITUS SEES A GREAT CHANGE

Man Who Put on Campaign That Resulted in Construction of Y. M. C. A. Building Visits Phoenix; Pleased With Work

C. G. Titus, general secretary of the Y. M. C. A. located at Sacramento, California, has been spending several days with former Phoenix friends.

Mr. Titus was the general field secretary of the Y. M. C. A. who nine years ago came to Phoenix and successfully organized and managed a campaign for a Y. M. C. A. building for Phoenix. The campaign was put on during April 1907. It was successful and the present building and institution is the result of the work done at that time.

Mr. Titus, after several days with the local Y. M. C. A. pronounced it one of the best institutions in the United States in the way of a Y. M. C. A. in a city of no greater size than Phoenix. In similar sized cities some have a better plant. Results that are being obtained here are among the best.

"The Y. M. C. A. work in Phoenix is worthy of support; it is doing good work," said Mr. Titus.

Mr. Titus noted many changes since his visit nine years ago. He particularly commented on the development in the way of school buildings, public buildings, pavements and the beautiful ornamental street lights that came into vogue when paving was started.

OATMAN BOOM AIDS BIG TERRITORY

Arizona at present is attracting attention from practically every city in America by virtue of its tremendous mining development. In many places, particularly Los Angeles and San Francisco, a great deal is heard about Oatman and the big gold development in its vicinity.

Oatman is near Kingman, a prosperous business center through which passes an immense tonnage brought into the country for Oatman and Colorado. Kingman is the center of a wonderfully rich mining country. It is the permanent headquarters for many big mining companies. It is the railroad center and also a residence center for managers, owners and operators of the many smaller as well as the larger mines of that district. Mojave County recently issued a \$100,000 road bond issue. Report has just been received that the attorneys for the buyers of this issue have passed favorably and that the funds will soon be forthcoming. It is also reported that the money from the sale of the high school bonds will be available early in May, and Mojave County will soon have a handsome building for the higher education of its young people. Local interest now particularly centers in the rapid growth of Kingman because of the operations in Kingman real estate by the Kingman Sub-Division Company, managed by H. G. Murphy of Phoenix. Mr. Murphy has just returned from a trip to Kingman and reports the town booming. The Hotel Beal is now adding 50 rooms to its capacity.

CLIFFORD SMITH IS NEW AD. MANAGER

Former Newspaper Man to Direct Sales Campaigns for Pratt-Gilbert Co.

The Pratt-Gilbert company which is rapidly developing into one of the biggest and best known implement and machinery houses in the southwest has added another expert to its force. Clifford H. Smith an advertising man, and formerly advertising manager of the San Diego Tribune, has been placed in charge of their advertising and sales promotion department.

While the Pratt-Gilbert company still does a big local business particularly in agricultural implements and machinery, it has during the past fifteen years developed connections with big manufacturers that have developed into state wide agencies and sales campaigns in leading makes of mining machinery, irrigating plants, heavy hardware, vehicles and implements for both shop and farm.

There are several sub agencies of the firm's lines in several other parts of Arizona, and they now have several men in outside fields regularly.

QUINN TAKES NICE TOUR TO THE COAST

Mr. and Mrs. P. J. Quinn of Quinn's Cafeteria, accompanied by their two children, returned Sunday from an automobile tour to the coast. Mr. Quinn gave a report of the roads which he says were in fair condition. He is enthusiastic about the pleasures of automobiling at this time of the year between Phoenix and the coast.

The trip was made in his own car. The going trip was made via Parker through San Bernardino, Riverside, on down to San Diego. Four days were taken and 625 miles covered. The return trip was made through Los Angeles and a total of five days was taken, and the mileage from San Diego through Los Angeles was 645. Mr. Quinn also referred particularly to the generous treatment received at Bushe's Ferry at Parker, which is the crossing point over the Colorado River on the Parker route.
